LAND CONSERVATION STRATEGY

Planning our future
together

10970 Highway 7,
Carleton Place, ON
K7C 3P1

Tel: 613-253-0006
Fax: 613-253-0122
www.mvc.on.ca

Conservation authorities are required to review their land holdings and the programs and services they deliver by the end of 2024 in accordance with O.Reg 686/21.

The resultant strategy is to:

- guide land acquisitions, development, and disposals;
- demonstrate how MVCA's land (and easements etc.) integrate with other publicly-owned properties and enhance natural heritage in our jurisdiction;
- establish acceptable land uses and the programs and services for each site; and
- identify funding sources for those programs and services.

The strategy will also inform the design and delivery of MVCA's programs and services by:

- providing guiding principles and objectives;
- outlining how MVCA will track progress against them;
- identifying gaps and challenges to delivering programs and services;
- identify funding needs and revenues.

Two documents were developed to obtain your input!

The Discussion Paper (short) poses key questions that MVCA needs to consider.

The Current State Report (long) is a reference document that provides useful background information.

Both can be downloaded from **mvc.on.ca/current-initiatives**
